Claims 10-13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The undescribed subject matter is the limitation "consisting of."

Claims 1-3, 5-8 and 10-13 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 the limitations of a substrate having interconnects formed by an internal metalization layer, a trace formed by said internal metalization layer, and said trace electrically isolated from said interconnects, appear to be incompatible because the interconnects and the trace are formed by the metalization layer; hence, they cannot be electrically isolated.

In claim 10 the limitations of a substrate having interconnects formed by an internal metalization layer, a conductive test circuit consisting of a trace formed by said internal metalization layer, and said runner electrically isolated from said interconnects, appear to be incompatible because the

interconnects and the runner are formed by the metalization layer; hence, they cannot be electrically isolated.

Claims 1-3, 5-8 and 10-23 have not been rejected over the prior art because, in light of the 35 U.S.C. 112 rejections *supra*, there is a great deal of confusion and uncertainty as to the proper interpretation of the limitations of the claims; hence, it would not be proper to reject the claims on the basis of prior art. As stated in *In re Steele*, 305 F.2d 859, 134 USPQ 292 (CCPA 1962), a rejection should not be based on considerable speculation about the meaning of terms employed in a claim or assumptions that must be made as to the scope of the claims. Also see *In re Wilson*, 424 F.2d 1382, 165 USPQ 494 (CCPA 1970) (if no reasonably definite meaning can be ascribed to certain claim language, the claim is indefinite, not obvious). See also MPEP 2143.03 and 2173.06.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee
